## EDUCATION

### Vidyavardhini's College of Engineering and Technology

BE IT

Vasai , West

Currently pursuing

### St.John junior Collegel

12th (Science-PCMB) - 76.5%

Palghar, East

March. 2022

### Holy Spirit High School

10th SSC - 80%

Palghar, West

March. 2020

## EXPERIENCE

### Sushirmala Foundation

Sep 2024– Nov 2024

- Developing and maintaining web applications using React.js and other related technologies.
- Collaborating with cross-functional teams including designers, product managers, and other developers to create high-quality products.
- Implementing responsive design and ensuring cross-browser compatibility.
- Participating in code reviews and providing constructive feedback to other developers.

## PROJECTS

### Crypto Price Tracker and Alerts | React , MongoDB , Node-js , Express-js , Axios , API , Git , Github Jan 2025

- Data Fetching : The backend fetches live cryptocurrency prices at regular intervals from the CoinGecko API.
- Caching Mechanism : Recently fetched prices are stored in an in-memory cache to reduce API usage and enhance response speed.
- Alert Monitoring : User-defined thresholds are compared with the latest prices to detect significant changes.
- Notification System : When conditions are met, the system triggers notifications via email or other channels.

### NGO | React , Bootstrap , Git , Github , Vercel

Dec 2024

- Developed a website for an NGO to facilitate the online display and sale of their products.
- The platform allows users to browse and purchase items, promoting the NGO initiatives.
- While transactions are handled through offline payment methods to simplify operations.

### Modern UI/UX | React, Tailwindcss , Git , Github , Vercel

Dec 2024

- Conceptualized and designed a visually appealing and intuitive frontend interface inspired by modern design principles.
- The theme emphasizes user engagement, ease of navigation, and a sleek aesthetic, making it ideal for dynamic web and mobile applications.

### KnowJoy | API Ninjas , React-JS + Vite, Git , Github

Dec 2024

- Developed an engaging entertainment website catering to diverse interests.
- The platform includes a variety of fun and interactive content such as jokes, riddles, and cocktail recipes, among other features.
- It is designed to provide users with a joyful and relaxing browsing experience.

### Vcet-NSS | React Native , MongoDB , Node-js , Express-js , Axios, Git , Github

Sep 2024

- Developed a comprehensive full-stack Android application designed to streamline NSS operations.
- The app enables efficient tracking and notifying of volunteer attendance, management of events, and facilitates interactive discussions by allowing members to create and share posts on various topics.
- It serves as a centralized platform to enhance collaboration among NSS members.

### Score Card | React , MongoDB , Node-js , Express-js , Axios, Git , Github

Feb 2024

- Created a robust full-stack application to provide real-time updates on college sports.
- The platform offers features to display live scores, manage player details, handle registrations, organize teams and sports events, and process fee transactions.
- This application enhances the overall management and visibility of college sports activities.

## TECHNICAL SKILLS

---

**Languages:** JavaScript, HTML/CSS, MySQL

**Frameworks:** React-JS, React Native, Node.js, Bootstrap, Express.js, Rest API

**Developer Tools:** Git, Github, Visual Studio,

**Libraries:** Axios, React Router, Mongoose
